Mapping Ontological Dimensions of Graffiti

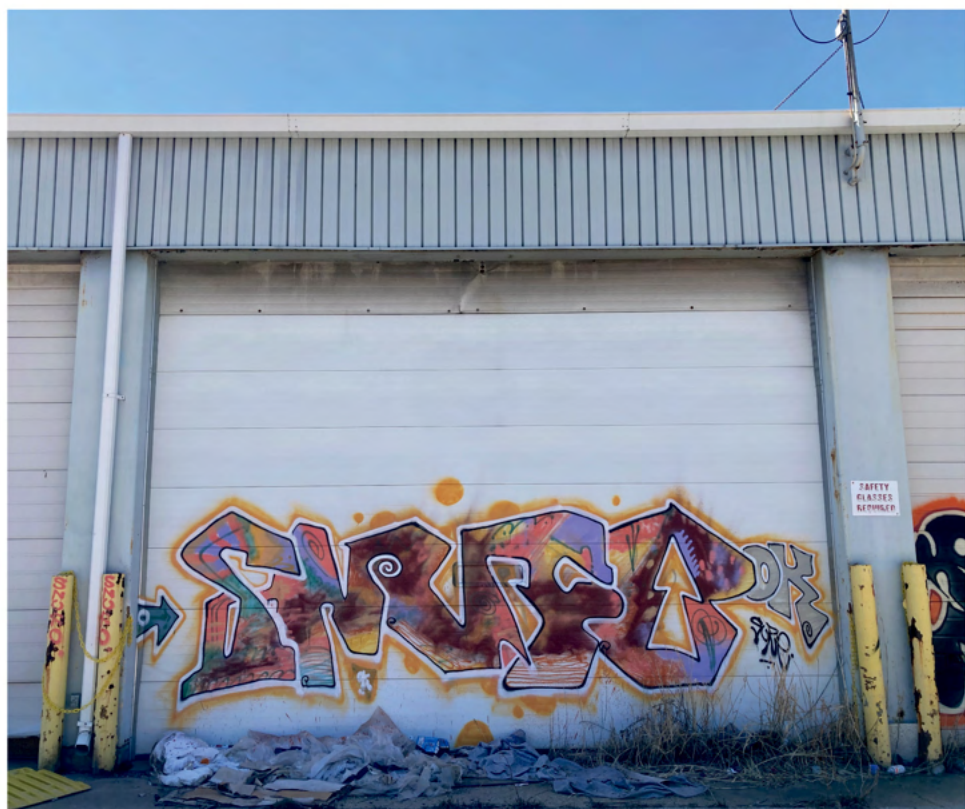

Graffiti is Gay

It's nice to
be sentimental
and write or
speak about your
thoughts and feelings.
Maybe u think this is gay
but that probably means
u have repressed so much of
yourself that honest expression
has become scary to you. Stop judgin
yourself and accept your feelings
maybe you r gay and ur scared of
wut ur boys will think but they love u and maybethey r kinda gay too.
